

Create a Shape Partner Check Sheet

My Name_____ Partner's Name _____

1. Draw a sketch of your partner's drawing here.
2. Take your own measurements with a ruler (in cm). Label your sketch with these measurements.
3. Check your measurements with theirs. If they are close, change your measurements to theirs. If their measurements are very wrong, then they will need to correct their work.
4. Calculate the area of their object. Do not look at their paper.
5. Check and see if the area's match. If they do not, find who made the error and correct it.
